

Supplier Sustainability Questionnaire

“Return this Section with your Response.”

The City of Tempe is strongly committed to sustainable practices and programs that help build a vibrant and resilient community. The City accomplishes this through a variety of innovative programs, including water and energy conservation, recycling, composting, alternative transportation, sustainable business practices and environmental stewardship. Tempe recently established its 2019 Climate Action Plan (CAP) that provides a guideline for how the City will take local action on global climate change by reducing its greenhouse gas (GHG) emissions and adapting to the changing climate. The Climate Action Plan serves as a guideline for the City's path toward a sustainable and resilient future that will benefit the entire City. The City has strengthened its commitment to sustainability by adopting a new carbon neutrality goal by 2050 and a strategy of sourcing 100 percent of its electricity from renewable sources by 2035. To learn more about the City's commitment to sustainability, please visit <https://www.tempe.gov/government/sustainable-tempe>.

To further this commitment, the City has developed a Sustainable Procurement Policy that provides specific guidelines for how these important sustainable practices and programs will be reflected in contract award decisions. By partnering with companies who share these sustainability goals, the City will be able to significantly enhance sustainable outcomes.

To support these efforts, the following Supplier Sustainability Questionnaire has been developed that will allow the City to better understand your company's efforts and commitments regarding sustainable practices and initiatives. This questionnaire has two sections – a section to understand what your company is doing regarding sustainable actions and a section to understand the specific sustainable attributes of the product or service that you are offering.

Item	Question	Response
Corporate Sustainable Actions		
1.	What sustainability guidelines or environmental statement does your company have to guide the company as a whole? Please include a link.	
2.	What is your company doing to be more energy efficient?	
3.	What is your company doing to reduce greenhouse gas emissions?	
4.	What is your company doing to reduce waste transferred to landfills?	
5.	What is your company doing to reduce water waste?	
6.	What kind of effort does your company make to reduce the use of environmentally harmful materials (<i>such as cleaning products, etc.</i>)?	
7.	Does your company take any actions to manage the sustainability of your supply chain? If yes, please explain.	
8.	Has your company received any environmental or sustainability related independent certifications or recognitions? If yes, please explain.	
Product Sustainable Attributes		
1.	Has your company performed an environmental life cycle analysis on the product being offered to the City? If yes, please provide documentation.	
2.	Can the offered product(s) offered be refurbished, recycled, or composted at the end of its life? If yes, please elaborate.	
3.	Does the offered product(s) include any recycled materials? If yes, please explain.	
4.	What measures have been taken to reduce unnecessary packaging materials associated with the product being offered?	
5.	What kind of reusable, recyclable, and/or compostable packaging materials does your company use?
